Code & Design Compliance

Of 9 checks performed against area and adjacency requirements, 8 passed and 1 require attention.

- At 12.5 m², the Bedroom 2 satisfies the 9.0 m² minimum area standard for its room type.
- Living Room is compliant on area, providing 22.5 m² against a 14.0 m² requirement.
- Bedroom 1 is compliant on area, providing 18.0 m² against a 9.0 m² requirement.
- At 12.0 m², the Kitchen satisfies the 6.5 m² minimum area standard for its room type.
- The Bathroom (6.4 m²) meets the minimum habitable area requirement of 3.0 m².
- The Entry (7.6 m²) meets the minimum habitable area requirement of 2.0 m².
- Living Room is correctly positioned adjacent to Kitchen, as required.
- The required adjacency between Living Room and Entry is satisfied in this layout.
- The layout does not satisfy the required adjacency between Bathroom and Bedroom 1.
